uni-ball® Air Pen | UBAIR

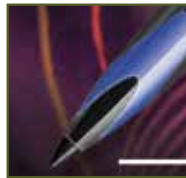

Put a lock on your clients' writing with the uni Super Ink™ cartridge that defies water, fading, and fraud. Unlike conventional rollerballs, the revolutionary nib on the Air is pressure sensitive. This gives a writing experience and differentiating line width similar to that of a fountain pen. The metal ball of the nib is encased in an acetal plastic, rather than the standard metal surround, which allows for a smoother flow of ink around the ball and an increased flow as further pressure is applied. The 0.5mm ball delivers a line width of between 0.28mm and 0.45mm. Imprinted on the cap only in one color. Ink matches trim color. Imprint area: 1" x 1/2".
